

# LIBERATOR® LIMITED WARRANTY

This limited Warranty\* applies to Liberator® machines used in the United States when purchased from a HOST® Authorized Distributor. The rotationally molded pod, filter housing and cover are warranted for 2 years with all other parts warranted for 1 year. Outside the United States, machines are warranted by the local Distributor.

This machine is warranted to be free from defects in materials and workmanship when used solely for the purpose of vacuuming, pile lifting, and HOST dry extraction cleaning of carpets and hard surface floors using HOST products only, otherwise Warranty is void. This Warranty applies to original Purchaser only. If machine is sold, transferred or lost, this Warranty becomes invalid.

In the event of failure of a part or parts within 1 year from original purchase date or failure of rotationally molded pod, filter housing or cover within 2 years, and upon inspection by the Manufacturer to determine that failure is due to defective materials or workmanship, such defective parts will be repaired or replaced at Manufacturer's expense.

This Warranty does not cover damages caused by accident, neglect, or abuse, nor does it cover expendable parts subject to normal wear. These items include but are not limited to, air filters and carbon brushes on the vacuum pod, and cleaning brushes, carbon brushes and timing belts on the base unit. Any modification to the equipment by the customer will absolve Racine International, LLC, of any and all liability under this Warranty.

Machines requiring repair under the Warranty must be sent to the Manufacturer freight prepaid. Repairs will be made and the machine returned to the original Purchaser freight prepaid in the United States.

When machines under this Warranty are returned with parts or accessories missing, the Purchaser will be charged for all parts and labor by the Manufacturer. After the Warranty has expired, a rebuilding charge will be quoted after Manufacturer has inspected the machine.

This Warranty gives you specific legal rights and you may also have other rights which vary from state to state.

## HOW TO GET SERVICE

If your machine fails to operate properly while in use under normal conditions within the warranty period, call HOST Customer Support at 1-800-558-9439 or email [customerservice@racineintl.com](mailto:customerservice@racineintl.com) to assist with product support and warranty service options. So we may better assist you, please register your product online at [hostdry.com](http://hostdry.com) and have the serial number on hand when you call.
